

# ***Why Landini DJ Entertainment Is Not Your "TYPICAL" DJ Service!***

**Reliability.** Our company is a professional full service event production office operating since 1984. We feature full time office staff ready to assist you. Unlike other DJ services, we are fully licensed and bonded by the State of Illinois. We are not amateurs who do this "part time."

**Credibility.** When selected to perform for top corporate events for Fortune 500 companies with up to 2500 people in attendance, our standards are required to be above your average DJ service. Our services are also used & recommended by the top Chicagoland hotels & meeting facilities and we appear on many of their preferred provider lists.

**No Worries!** Clients book with us because they hear nothing but raves about us! They know they cannot be in more capable hands. All of their details are coordinated by our highly experienced event producer. We take the work and worry off them and they love it!

**Value.** The cheapest is not always the best buy and more often than not, it's a huge disappointment. When success is your priority, your event is best in our expert hands. We can resolve unusual situations that occur on events and that can be a real lifesaver when needed!

**Experience.** Due to our large national client base with diverse entertainment needs, our DJ's must be highly experienced at emceeing any type of event. We pace your event appropriately and draw your guests' attention where it needs to be and when. We don't miss a beat!

**High Tech.** Our equipment is new, current and of radio station quality and durability. Our sound equipment doesn't "rock" when you do!

**Music Library.** We feature an extensive and highly explosive library of music all on new original CD's. Our music is not sub-standard second generation copies resulting in poor sound quality. We even have the hottest releases before you may hear them on the airwaves. We are never out of date when it comes to our music library!

**Music Selection.** You have the option to pick your favorite hits in advance. You can also choose how active you want your DJ to be with your guests. Our popular DJ Request Station enables your guests to make and see what requests are being made during your party.

**Appearance.** We look great and sound great. Our equipment is attractively displayed and our DJ's are immaculately dressed in formal attire. Theme attire is also available.

**Special Effects?** We have them. We feature special effect lighting that can also be synchronized to the beat of your music. Also, beacons, mirror ball, laser lighting and fog.

**Options!** Our company features over 250 Music & Entertainment services. Select a theme or combine our DJ music with live music, entertainers, interactive dancers, entertainment stations, karaoke, competitive attractions & more for an event that will be spectacular!
